

Argedit

■ AP32 Distrubution Box

Technical Details

Dimensions	262x329x108mm
Maximum Capacity	32 Core Output 32 Core Splicing
Material	PC ABS
Fire Rezistence	UL94 V0
Operating Temperature	-40°C ~ +60°C
Relative Humidity	≤85%(+30°C)
Protection Classification	IP 67

This box is used to terminate mains cable and feed drop cables in FTTX communication network system. In this box, fiber splicing, splitting and distribution can be done.
